

Enchanted Light Garden

Located in woodland which is incorporated within the Santa's Woodland Village hides our Enchanted Light Trail.

The activity is suitable for all guests with additional needs however there is a variation in levels of path throughout the woodland walk. The path is hardcore and guided by rope and low-level lights.

Flashing and bright lights are a fundamental element of this experience. However, Center Parcs has received advice that photosensitive epilepsy is most likely to be triggered by (among other things) lighting flashing/strobing at a rate of 2hz (2 times per second over an extended period of time). The lights on the trail have been programmed avoiding this rate and do not continually flash for extended periods of time.

The nearest accessible toilets are located directly at Santa's Woodland Village.
